MINGLE ANALYTICS

Your Quality Reporting Partner for PQRS and MIPS

Avoid Penalties. Empowering You With Expert Consultants, Cutting-Edge Tools

Medicare quality reporting is complicated. Mingle Analytics has mastered the process.

Our flagship quality reporting products and services streamline your PQRS, and soon MIPS, reporting process for submission success.

Equally committed to serve large and small practices and all specialties

We are experienced with solo and small group practices. We are also skilled at serving complex healthcare groups that span multiple tax-ID numbers, states, and information systems.

We are more than a technical solution; we guide you every step of the way

Our quality reporting Consultants help you select measures that are meaningful, provide ongoing education on CMS reporting rules, and position you for success under value-based purchasing.

Submission is the easy part.

Let us help you with the hard part.

Our comprehensive, user-friendly analytical tools and knowledgeable Consultants enable you to succeed with quality reporting. We help you:

- ✓ Choose the right submission method
- ✓ Select the right measures
- ✓ Repurpose claims data for registry submissions
- ✓ Know your results before your submission goes to Medicare

Successful track record

PQRS Solutions™ is the #2 CMS-qualified registry – in 2015 we made over 32,000 successful submissions on behalf of more than 1,700 clients. Our success rate is greater than 99%.

We've streamlined PQRS reporting, and we'll do the same with MIPS and the Quality Payment Program – we'll help you avoid penalties and protect your income.

Our Quality Reporting Solutions for PQRS and MIPS

Our comprehensive tools and services will ease the burden of Medicare quality reporting. Register today to get started.

Submission Dashboard™

Track the status of your project and stay informed about the progress of your submission.

Measure Analyzer™

Analyzes your specific practice management data to count patients, visits, or episodes of care eligible for each PQRS measure, by domain. You can make a fully informed decision about which measures are most applicable to you.

Incentive Analyzer™

Analyzes your specific practice management data to predict the incentive or penalties that will apply to you.

Performance Analyzer™

You will receive:

- Performance reports by provider and Measure.
- Interim reporting to see the results before you submit. [add-on]
- Comparison data so you will know how your results "stack up."

You choose if and when you submit your data to Medicare.

Knowledgebase and Support

Provides resources to help plan and implement your quality reporting project, including eligibility specifications and PQRS Performance Tools for each measure.

Put our capabilities to work for your practice, customers, and members.

Are you looking for a quality reporting solution for PQRS, MIPS and the Quality Payment Program?

Partner with Mingle Analytics to provide a solution that meets the needs of your providers, customers and members.

Reporting capabilities:
