Welcome to MIPS Solutions

Mingle Health is here to help you succeed and earn incentives under the new Quality Payment Program. MIPS Solutions™ is your one-stop solution for reporting all three Performance Categories; Quality, Promoting Interoperability (PI) and Improvement Activities (IA).

MIPS Solutions provides a step-by-step process for each performance category in the corresponding module. This MIPS Dashboard and Scorecard page will display your estimated Final Scores for your practice/s and track your progress toward submission to Medicare.

Looking ahead to 2022

Set your Organization's Goals

Meet requirements
& minimize penalty

Maximize positive adjustment

Prepare for APM participation

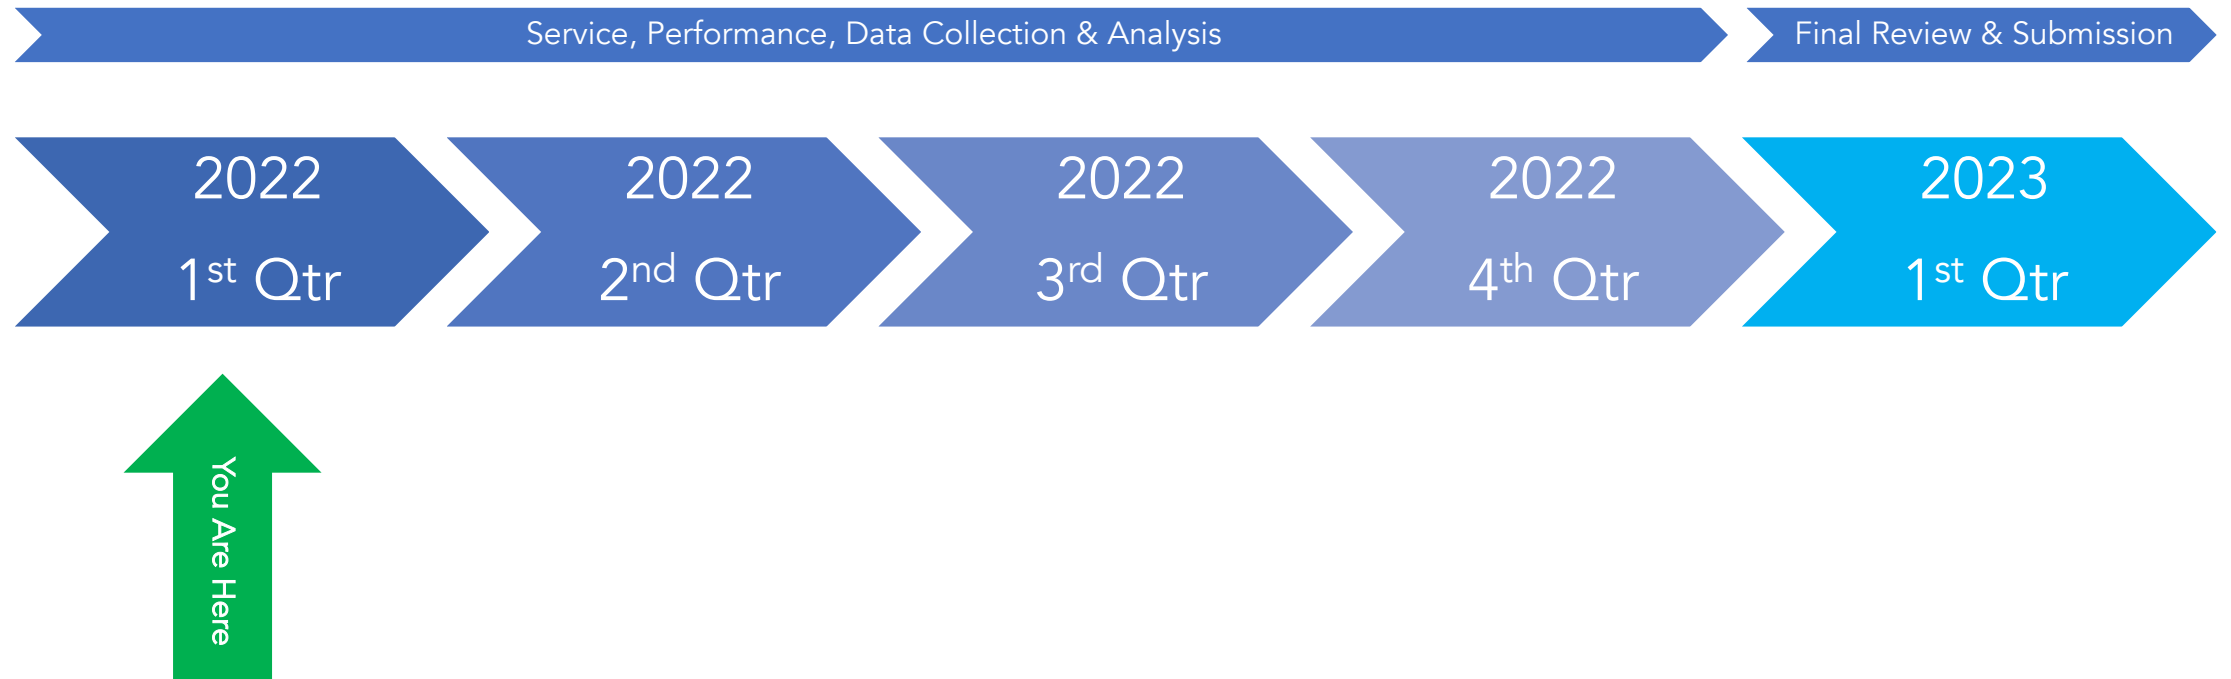

Increasing Thresholds and Payment Adjustments

Performance Year	2017	2018	2019	2020	2021	2022
Payment Year	2019	2020	2021	2022	2023	2024
Avoid a penalty	3 points	15 points	30 points	45 points	60 points	75 points
Exceptional performance	70 points	70 points	75 points	85 points	85 points	89 points
Positive adjustment*	1.88%*	1.7%*	1.79%*	~2%*	TBD*	TBD*
Maximum Penalty	-4%	-5%	-7%	-9%	-9%	-9%

* Positive adjustment is lower than design due to transition year dynamics, low volume threshold (fewer clinicians participating), scaling factor and budget neutrality, and exceptional performance bonus.

Measure Score Changes

Will the same performance lead to your score increasing? Decreasing? Staying the same?

Year-over-Year Score fluctuation for same performance due to:

- New and changing benchmarks
- Discontinued Measures
- Topped out measure policies
- Changing specifications
- Variations around the 20-case minimum

Q&A

Debra asks:

Can you explain how individual measures impact Cost calculations? E.G. Does the Colonoscopy measure lower the 'Cost' calculations since it's preventative?
